

Target CPI + 6%

Return Date: 2021/12/31

South African Rand

Local Manager Commentary

Evidence that the newly found variant of Covid-19, dubbed Omicron, causes less severe symptoms and is less virulent, although it is more highly transmissible, led to most travel restrictions to and from Southern Africa being lifted by global destinations. The lifting of restrictions came alongside news that most major countries have already been experiencing cases of this variant before South African scientists discovered it. The reduction in restrictions led to an increase in risk appetite from investors earlier in the month, that in turn led to equities and property outperforming their less volatile counterparts, namely bonds and cash.

Investment Objective & Strategy

Deliver a return equal to or greater than CPI + 6% p.a. over rolling five year periods while keeping the portfolio standard deviation as low as possible. Over any rolling three year period the portfolio should always deliver a positive return. The Portfolio is a Multi-Manager solution and will comprise at least two underlying funds and ideally a maximum of six underlying funds. Fund selection will be biased towards funds that have high Sortino Ratios, low downside expectations and have been managed through significant negative equity market conditions. The portfolio will invest in funds that allow the manager to make as many of the asset allocation decisions as possible. Manager selection will balance momentum and value management styles. This portfolio is Regulation 28 compliant.

Investment Growth

Asset Allocation (SA) - Target CPI + 6%

Portfolio Holdings - Target CPI + 6%

Trailing Returns - Target CPI + 6%

Disclaimer

The Portfolio may be closed to new investments at any time in order to be managed in accordance with its mandate. Permissible deductions may include management fees, brokerage, STT, auditor's fees, bank charges and trustee fees. The portfolio only invests funds with managers regulated by the FSB. The portfolio is a long-term investment. Performance figures are produced by STAR Investment Partners (Pty) Ltd, supplied by independent service providers, and are for lump sum investments with income distributions reinvested. STAR Investment Partners (Pty) Ltd is an Authorised Financial Services Provider. The previous month's change in inflation is used as an estimate for the current month (since inflation numbers are released one month in arrears). *Returns are based on the strategic underlying weightings of the funds and will not exactly reflect individual client returns. All returns are net of fund management fees, but exclude advice and administration fees. Prior to portfolio launch date, the performance is pro-forma using the actual underlying fund performances and is net of all fees and expenses
